CASE FINISHING: THE BASICS

Dr. Adrian Palencar
Diplomate IBO
Thorold, ON

Thursday, October 25, 2018

8:00 a.m. - 6:00 p.m.

Course Fee: \$695

Dr. Palencar is a Diplomate of the International Board of Orthodontics and has a Mastership in the Academy of General Dentistry. He has been lecturing internationally for the past 11 years. Dr. Palencar is also an IAO Certified Master Senior Instructor. His Hands-On Wire Bending course has nearly sold out in every city for the past 5 years.

The purpose of this course is to help finish orthodontic cases using important wire bends thus torquing and tipping roots and crowns quickly and efficiently. Ample time will be allotted for you to bend the various loops and archwire bends that will help improve your case finishing skills. Dr. Palencar will demonstrate the clinical indications for the various loops and bends.

(Five other instructors available for hands-on lab exercises)

Pre-Course Free Online Access:

Introduction to Case Finishing

(It is recommended that participants carefully review this 2 hour presentation prior to the course.)

Biokinetics of Orthodontic Tooth Movement

- Clinical responses
- Principles of anchorage
- Histological responses
- Orthodontic relapse

Principles of Biomechanics

- Moments and forces
- Types of movements
- Magnitude of force
- Couples
- Static equilibrium
- Point of force application

Mulligan Common Sense Mechanics

Moments and Forces

Course Content

1st Order Wire Bends - Step-In and Step-Out

2nd Order Wire Bends - Tip (Angulation)

3rd Order Wire Bends - Torque (Inclination)

4th Order Wire Bends

1. "V" bends
2. Vertical open loop
3. Vertical helical closing loop
4. Utility arches:
 - Neutral
 - Intrusive
 - Extrusive
 - Protrusive
 - Retrusive
5. Connecticut Intrusion Arch (CIA)
6. Tip back and tip forward
7. Mulligan mechanics:
 - Intrusive arch
 - Retrusive arch
 - Overlay arch
 - Center & off center bend
 - In-bend & out-bend
 - Toe-in & toe-out

AGENDA

Friday, October 26, 2018

7:30 a.m.	Registration
8:00 a.m.	Dr. Rondeau - Class II Malocclusions
10:00 a.m.	Break
10:30 a.m.	Dr. McFarlane - Carriere Motion Appliance and Invisalign®
12:30 p.m.	Lunch
2:00 p.m.	Dr. Klauer - How to Implement Sleep into a General Practice
4:00 p.m.	Break
4:30 p.m.	Scott Manning - How to Successfully Compete with Dental Corporations
5:30 p.m.	Cocktail Party & Learning Lounge

Saturday, October 27, 2018

7:30 a.m.	Registration
8:00 a.m.	Dr. Spencer - All TMJ Patients are Nuts, Right? How to Evaluate, Diagnose and Treat the Most Common TMJ Problems
10:00 a.m.	Break
10:30 a.m.	Dr. Gonzalez - Implementing Orthodontics in the Modern General Practice: Easier Than You May Think
12:30 p.m.	Lunch
2:00 p.m.	Dr. Ramirez-Yañez - Early Treatment of Malocclusions: How Preventable and Interceptable are They?
5:00 p.m.	Adjourn

Staff Hands-On Workshops

Workshops will be available for staff throughout the conference.

There is **no additional fee** to participate however, **pre-registration is required.**

Please see website for complete details

DR. BROCK RONDEAU

*Diplomate International
Board of Orthodontics
London, ON*

Dr. Rondeau is a Diplomate of the International Board of Orthodontics, a Diplomate of the American Academy of Dental Sleep Medicine and a Diplomate of the American Academy of Craniofacial Pain. He has an extremely busy practice limited to the treatment of patients with orthodontic, snoring and sleep apnea and TMD problems. Over 23,000 dentists have attended his courses and study clubs internationally. Dr. Rondeau has published over 30 articles on orthodontics, sleep disorders and TMD. His Level I and Level II orthodontic, TMD and Sleep courses are also available online.

Friday, October 26, 2018 • 8:00 a.m. - 10:00 a.m.

Class II Malocclusions

How to diagnose and treat Class II malocclusions to achieve outstanding profiles, broad smiles and healthy temporomandibular joints. Great treatment starts with making the correct diagnosis. Ideally, treatment should begin in the mixed dentition, utilizing functional appliances to correct the skeletal problems.

Multiple “new” cases will be shown using Rick-A-Nator, Twin Block, “New” Carriere Motion Appliance, Myobrace and MARA Appliance for children and adults.

A portion of the presentation will be devoted to how you market your ortho practice using internal and external marketing.

DR. BRUCE MCFARLANE

*Orthodontist
Winnipeg, MB*

Dr. McFarlane graduated from the University of Western Ontario with an orthodontic degree in 1992. Dr. McFarlane lectures regularly on Carriere Motion Appliance and clear aligners. He is in the top 1% of Invisalign® providers. He visits third world countries every year to provide volunteer medical and dental services to those less fortunate. Dr. McFarlane has an extremely busy practice in Winnipeg and is very passionate about providing excellent orthodontic care for his patients.

Friday, October 26, 2018 • 10:30 a.m. - 12:30 p.m.

Carriere Motion Appliance and Invisalign®

This lively presentation will explore the rationale for the diagnosis and correction of anteroposterior and transverse problems before fixed braces or aligners. This will include the indications for the use of Carriere Motion appliances to solve Class II and III discrepancies prior to orthodontics. The Nitanium Palatal Expander is used to correct transverse problems. Numerous case studies will be presented to show how these approaches will make a big difference in treatment efficiency and predictability.

DR. DANIEL KLAUER

*Diplomate American Board
of Dental Sleep Medicine
South Bend, IN*

Dr. Daniel Klauer is owner and operator of one of the largest TMJ and Sleep Therapy clinics in the world. He is the Clinical Director of the TMJ & Sleep Therapy Centre of Northern Indiana. A graduate of the Ohio State University, he has completed over 1,500 hours of continuing education in Craniofacial pain, TMD and Sleep Medicine. Dr. Klauer is Board Certified with the American Board of Dental Sleep Medicine and the American Board of Craniofacial Pain.

Friday, October 26, 2018 • 2:00 p.m. - 4:00 p.m.

How to Implement Sleep Into a General Practice

In his lecture, Dr. Klauer will talk about the fundamentals of sleep, the dentist's role, and review case presentations of patients suffering from sleep disordered breathing. He will give you a behind-the-scenes look of how he built his practice. He will be highlighting key points of his fee-for-service practice and marketing strategy. This rapidly growing area of dentistry cannot be ignored anymore. Come learn how so many of your patients are in need of this treatment and how to incorporate it into your practice.

SCOTT MANNING

*Practice Management Specialist
Nashville, TN*

Scott has achieved an MBA which helps him provide his insights into the business side of dentistry. He is an exceptional practice management consultant who has helped countless dental practices grow by streamlining their systems and improving patient acceptance of your treatment plans. Scott also helps increase retention rates, boost team member morale and increase productivity. Scott is the author of multiple practice enhancement books.

Friday, October 26, 2018 • 4:30 p.m. - 5:30 p.m.

How to Successfully Compete with Dental Corporations

In this powerful 'first time ever' presentation, Scott will provide you with six specific strategies that will give you instant differentiation against all other practices in your city.

He will show you how to grow, without having to spend money on marketing, into a referral practice and in two specific and critical changes to your patient experience, ensure that you dramatically increase your case acceptance.

Take control of your practice and learn the strategies for success today!

DR. JAMISON SPENCER

*Diplomate American Board
of Craniofacial Pain
Raleigh, NC*

Dr. Spencer's practice is limited to the treatment of TMD and Sleep Disorder patients. He is a Diplomate of the American Board of Craniofacial Pain and Diplomate of the American Board of Dental Sleep Medicine. Dr. Spencer has lectured across the United States, Latin America, Australia and Europe.

Saturday, October 27, 2018 • 8:00 a.m. - 10:00 a.m.

All TMJ Patients are Nuts, Right? How to Evaluate, Diagnose and Treat the Most Common TMJ Problems

TMJ disorders are one of those areas where almost every dentist feels uncomfortable. In dental school we didn't get much classroom information, and little or no clinical experience. In this lecture Dr. Spencer will review the relevant anatomy and discuss simple examination, diagnosis and treatment techniques.

- Relevant anatomy of the head and neck
- Principles of examination and evaluation for TMD
- Straight forward ways to diagnose the most common TM disorders
- Treatments for the most common TM disorders

DR. MARIO GONZALEZ

*Orthodontic Professor
Rancho Cucamonga, CA*

Dr Gonzalez, lives and practices in Rancho Cucamonga, CA. He has been teaching Orthodontics and Invisalign at Western University of Health Sciences for the last 3 years while maintaining a full-time practice. He has authored several articles on orthodontics and is the inventor of the G-G Appliance (Transitional appliance from Phase I to Phase II TMD treatment), The Aztec Habit Appliance (office-made habit appliance) and The "Milagros" Appliance (for Class III Skeletal treatment) (all to be incorporated into this presentation).

Saturday, October 27, 2018 • 10:30 a.m. - 12:30 p.m.

Implementing Orthodontics in the Modern General Practice: Easier Than You May Think

In today's market, most patients are comforted to receive comprehensive care in one physical facility as opposed to traveling to various dentists and locations for comprehensive care. The key is to understand which cases to treat and which to refer. Orthodontics unlike other treatment procedures we provide for our patients, gives us many unique opportunities to help enhance self-esteem and in many cases even "change a life by helping create beautiful smiles". After this 2-hour presentation, the attendees will know which patients they can confidently treat and how to properly refer those patients that may be beyond their scope.

DR. GERMAN RAMIREZ-YAÑEZ

*Pediatric Specialist
Aurora, ON*

Dr. German Ramirez-Yañez is an internationally recognized academic and researcher who translates the basic sciences into the clinic. He has a practice in Aurora, Ontario and has over 30 years of experience treating malocclusions and oral dysfunctions with a functional approach. Dr. Ramirez-Yañez has published more than 20 scientific articles about functional appliances and the biological rationale for functional treatment of malocclusions. He is the author of "Early Treatment of Malocclusions: Prevention and Interception in Primary Dentition", and co-author of "The Trainer System: A myofunctional approach to treat malocclusions."

Saturday, October 27, 2018 • 2:00 p.m. - 5:00 p.m.

Early Treatment of Malocclusions: How Preventable and Interceptable are They?

In this lecture, Dr. Ramirez-Yañez presents insights of craniofacial growth and development and the current scientific basis for preventing, intercepting and treating malocclusions at an early age. Cases will be shown involving preventing and intercepting more complicated problems such as breathing and oral functional disorders in children. Evidence based treatments and modus operandi of functional treatments to treat malocclusions and breathing disorders during primary and early mixed dentitions, such as the Planas Direct Tracks and the Myobrace System will be discussed.

JOIN US IN THE LEARNING LOUNGE

Friday, October 26, 2018 • 5:30 - 7:00 p.m.

Join us for our Cocktail Party and Learning Lounge. This year will feature wire bending with Dr. Palencar and utility arches with Dr. Gildner, case diagnosis with Dr. Lowry and Dr. Slabach, bite registrations with Dr. Rondeau, medical reimbursement for TMJ splints and sleep appliances, hands-on Carriere Motion Appliance, social media, website, Facebook, hands-on Myobrace Appliances and exercises, digital photography, forms, letters for ortho, TMD, sleep, JVA, laser, Invisalign, propel and practice management. You will move from station to station with the opportunity to practice your hands-on skills with our instructors. There is something for every member of your team. Don't miss this exciting cocktail party! All materials will be supplied; you need only bring your pliers. The list of pliers will be forwarded upon registration.

You will have the chance to visit our exhibitors to get the latest innovations in archwires, brackets, and fixed orthopedic appliances to help improve your case finishing.

We hope you'll enjoy some hors d'œuvres and a glass of wine. Reconnect with old friends and make new ones as you explore our exhibit hall and Learning Lounge.
